CF/NGC Serialization

The supplier is responsible for assigning serial numbers as specified on the drawing. Serial numbers shall be unique across all purchase orders. Serialization requirements on the drawing take precedence over the requirements of this Quality Assurance Provision. In the event conflict between the purchase order and the drawing cannot be resolved, contact the buyer. Serial numbers shall be in the following format: Supplier's Cage code, followed by a dash, followed by the supplier-assigned number. Example: 3BJA0-00001. The total length of the serial number shall not exceed 20 characters. In the event a supplier does not have a cage code they can use their vendor code. Example: V506771-00001.
