Quality Assurance Program (Commercial)

The supplier shall, in the performance of this order, provide and maintain a quality assurance program that shall, as a minimum, provide the following:

- Verification that the supplied item was manufactured and inspected in accordance with purchase order requirements.
- A calibration and recall system to assure the accuracy of measuring equipment used for product acceptance.
- Detection of nonconforming material. Such material shall be identified, and segregated from stores of new and/or accepted material.

CFC/NGC reserves the right to conduct a survey/audit of the supplier's facilities to determine the adequacy of the supplier's quality assurance program.
