Furnished Materials

Supplier responsibility for Alliant Techsystems/ABL and/or government furnished materials shall include, but not be limited to, inspection of attributes and/or functional requirements which may be altered by the supplier's subsequent manufacturing process. A visual inspection shall be performed upon receipt of the supplied materials and documentation for serial/lot numbers, identification, count, and damage. If the supplied material is damaged, discrepant, will not fit the manufacturing tooling, or does not have the shipping documentation required to meet the procurement document, the material shall not be used, reworked or repaired without approval of Alliant Techsystems/ABL. The supplier shall maintain the quality of furnished materials.
