Supplier Control Of Subtier Suppliers

The supplier remains responsible for traceability and quality requirements imposed by Alliant Techsystems/ABL even when the supplier is allowed to subcontract part of the work. This responsibility shall include:

- 1 Selection and control of subtier suppliers, unless otherwise specified in the purchase document.
- 2 Transmission (flow down) of applicable quality assurance requirements to subtier suppliers
- 3 Control of special processes performed at subtier suppliers.
- 4 Assuring subcontracted inspection services comply with mil-std-45662 rev.a, as a minimum.
- 5 Assuring traceability of items processed through subtier suppliers it is the supplier's responsibility to assure that his purchase order to the subtier supplier requires sufficient acceptance data to clearly fulfill the requirements imposed by the Alliant Techsystems/ABL purchase order to the supplier.
